Ron Pernick will discuss the Nasdaq Clean Edge Green Energy Index (CELS), including historical development, industry trends, and where the clean-energy market might be headed. Karl Cheong from First Trust will discuss the tracking fund, the First Trust Nasdaq Clean Edge Green Energy Index Fund (QCLN), putting it in the context of the thematic backdrop that renders such forward-looking investment solutions relevant to investors and Advisors seeking to incorporate themes powered by technological innovations as well as the ultimate imperative necessity of protecting our planet.

This webinar is available in both English and French.
