Subject: Grow your investments. Reduce your taxes.

## Helping you help your clients with tax efficient investment solutions

Canoe Portfolio Class is an innovative solution that provides tax efficient growth and income for your clients' non-registered investments.

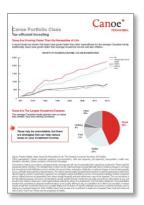

## Canoe Portfolio Class, through its unique structure, provides:

- Tax efficient income: pooling of income and expenses reduces overall income that is distributed and taxed in the hands of your clients. Additionally, a taxable disposition is only triggered when they reduce or fully redeem their investment in Canoe Portfolio Class.
- Tax deferred growth: paying less tax now leaves more of your clients' assets at work to compound over time.
- No "trapped Income": utilizing a trust component allows any excess income to flow to investors which avoids a tax charge against the investment's NAV.
- *Tax-free switching:* your clients can switch between Canoe Portfolio Class Funds without triggering a taxable event.
